

# Art Club

HAPPY  
NEW YEAR  
2022

# Art Club

- We believe that art is used as a bridge for expression. We hope to nurture students' interest, creativity, and self-expression in art through exploring and experimenting with different art forms and mediums.
- Training sessions are held on Mondays and Wednesdays.
- Highlights of 2022:
  - Club's active participation in the school's 65th anniversary by creating murals on the external walls of the art rooms and in the school-wide logo design competition.
  - One of the 2022 Art Club's Singapore Youth Festival team was awarded a Certificate of Recognition by the SYF's curatorial team.
  - Art Club president won the commendation prize for the secondary school category for the Long-term Plan Review (LTPR) Art "Space for Our Dreams" Competition held in November 2021.
  - All members participated in the yearly National Organ Transplant Unit (NOTU) Live on Design Competition.

# Reflection by Jing Ting, Class 3E

“I was fortunate to be appointed as the President of the Art Club this year. My responsibilities include coordinating weekly club activities and working closely with the Art Club teachers and members. This experience made me more confident in making decisions and communicating with others. I had learnt calligraphy, a new skill I picked up when the Art Club made name cards for teachers.”

# Reflection by Gian Escolana, Class 3B

“Being someone who doesn’t has many interests, the freedom and creativity Art Club offered always enticed me ever since I learned about this Co-Curricular Activity. Through the many activities, I left my comfort zone and used many different art mediums to express myself. I was also able to meet many understanding and generous schoolmates who shared similar interests as me. In three years, I was able to experience so much- thanks to the teachers, instructors, and my fellow members. I believe that Art Club has made me appreciate different types of art and bond with others who enjoy art the same way I do.”
